

## GULF RACING 102

Gulf Racing 102 is an unleaded, oxygenated fuel that has a three-digit octane level, providing you with that sought-after competitive advantage against others using standard unleaded fuels.

Our 102 formula is a consistent and reliable fuel that provides an increase in performance across many different applications. The fuel can also be used at all levels of motorsport from professional to amateur as it is both FIA and Motorsport UK compliant.

### FUEL SPECIFICATIONS

Unleaded

Research Octane Number **101.4**

Motor Octane Number **89.1**

Dry Vapour Pressure Equivalent **8.3psi**

Oxygen Content **3.4%(m/m)**

Specific Gravity **0.756**

QUALITY. ENDURANCE. PASSION.
